GRAGE PROJECT: GREEN AND GREY LIVING IN URBAN AREAS

GRAGE PROJECT is a 4 year action that focuses on developing winning ideas to promote an active, harmonious and inclusive citizenship for elderly people living in urban contexts.

Time for thought...

- ❖ Did you know that elderly are more likely to **live alone** in urban areas?
- ❖ Have you notice any **changes** in your urban life, as years pass through?
- ❖ Are you **satisfied** with your city?
- ❖ How do your **peers** cope with everyday activities?

Our goal is:

- ✓ To improve understanding of cultural societal factors that affect elderly attitudes, values and behaviours
- ✓ To place **the needs and rights** of elderly citizens at the centre of urbanization issues
- ✓ To relate positive impacts of environmentally friendly techniques to the everyday life of older people

Did you know that by 2050, 19 of 20 countries, worldwide, with the oldest population will be located in Europe ?

By then, I won't be located in Europe...

**HELP US
PROMOTE
HEALTHY
AGING IN
EUROPEAN
CITIES!**
